ST Any of our readers afflicted with Scattrula or Screenlaus complaints, will do well to read the remarks in our advertising columns respecting it. But ittle of the nature of this disorder has been known by the people, and the clear exposition of it there given, will prove acceptable and useful. We have long admired the searching and able manner in which Dr. Aren treats every subject be touches: whatever has his attention at ail, has a great deal of it; he masters what he undertakes, and no one who has a particle of feeling for his afflicted fellow man, can look with indifference upon his labors for the sick .stead when he says of Scrofule, and see in how four words and how clearly he tells us more than we all nave known of this insideous and fatal malady .-Sun, Philadelphia, Pa.
